COVID-19 Resources
Bedside resources
http://www.isaac-nf.nl/covid-19-aac

Bedside resources by ISAAC-NF in 14 languages (work in progress): *English, German, Dutch, French, Italian, Russian, Slovak, Spanish, Turkish, Vietnamese, Polish, Croatian, Portuguese, and Arabic*. Most languages are freely available in several versions: a) text only, b) mostly asked questions, c) text with graphic symbols. The messages on communication boards are numbered, so any two languages can be put together for bilingual bedside communication. All freely downloadable from:

https://www.patientprovidercommunication.org/covid-19-free-tools.htm

The Patient-Provider Communication Forum, with the support of the United States Society of Augmentative and Alternative Communication (USSAAC), is providing a free bank of communication supports to patients and their health care workers during this unprecedented time of need. Included in the bank of free resources are: a) Downloadable health care communication boards to support patients of different ages, abilities, and languages (*English, Arabic, Bulgarian, Chinese, French, German, Hebrew, Italian, Portuguese, and Spanish*), b) embedded in each tool are instructions for health care providers and other communication partners to support the presentation of the boards, even if the patient has difficulty pointing or seeing. All freely downloadable from:
