

## ISAAC CONFERENCE 2016 CALL FOR PAPERS “FREEWARE” PDF Creator Applications

ISAAC International recommends that individuals submitting a proposal for Conference 2016 use the full version of Adobe Acrobat to create their “Long” or “Extended” abstracts, inclusive of the required ASHA Disclosure Forms.

For individuals who may not have access to the full version of Adobe Acrobat, there are many different freely available applications off the internet that will allow users to create and combine custom pdf documents. ISAAC International is providing a sample list below of a few such “freeware” applications that can be downloaded and used at no cost:
